About This Content

Continue the adventure beneath Castle Aldrheim and discover the fate that has befallen the buried city of Old Aldrheim and its inhabitants.

Magicka Dungeons & Gargoyles is a new expansion to Magicka that continues the tale where Dungeons & Daemons left off.

Hop on the tour for adventure along the streets of the buried city of Old Aldrheim, find out what happened to its previous inhabitants, blast things in the face(s) while ultimately trying to find a way back home...

Due to popular demand the hard mode from Dungeons & Daemons makes a return as well but since we like to keep it a secret we can't talk much more about it. (It's to the left...)

Key Features

- Tumble into the second chapter of a new brilliant tale in the Magicka universe
- Explore the streets of Old Aldrheim
- Look for secrets in the back alleys of a lost buried city.
- New creatures and adversaries.
- Test your skills in the chapter's unforgiving "hidden" hard mode

-
- Innovative and dynamic spell casting system with thousands of possible combinations
 - Up to four player co-op in all game modes as well as single player option
 - Experience the parody and satire of a cliché fantasy world

magicka dungeons and gargoyles achievements. magicka dungeons and gargoyles crash. magicka dungeons and gargoyles secrets. magicka dungeons and gargoyles hard mode. magicka dungeons and gargoyles. magicka dungeons and gargoyles walkthrough

Glitchy, short, unplayable when you want to complete achievements, a waste of your money. good compared to magicka 2. Never works seems to crash all the time if not all the time sometimes in the middle of it or end of it.. Short, frustrating and buggy.

The major battles are not clever, instead they overwhelm you with enemies. At times the game is so dark you can't see anything. Most frustrating of all is there are *no checkpoints*; if you wipe in a battle you have to start all over again from the beginning.

The final battle is kinda clever, and the game crashed when we finished it.. Don't buy this. The devs don't care about Magicka, so they wont fix any of the game breaking glitches (games crashing, unable to actually start the game, no MP working etc).. I need friends to play this I die to much. it shouldn't be played alone.the balance is bad,the enemy are too strong. What a pile of \u2665\u2665\u2665\u2665\u2665\u2665\u2665 this DLC is. There are four fights total in the entirety of this DLC, all of which are only hard in a really lazy way (tons of enemies thrown at you, no magicks except for revive and haste). Not only that, but 2/3 times the last fight crashes for no reason. 1/10. Definitely not worth \u00a3. Hi, It is unplayable, Litterally crashes on the first screen.

10/11 Highly recomended. Perfect Magicka Experience.

After having played every part of Magicka, I was looking forward for this DLC. The last DLC of Magicka? More continuation after the boss of Dungeons & Daemons?

So, I started the adventure. I had some videos and it seemed to be the start of an epic history: there was no fight, something was luring in the dark... then, I found some timid combats just to introduce the DLC.

Such a nice intro did I think. Unfortunately, the end of that intro was the end of the game.

PROS:

+Magicka scenerie!

CONS:

- 15 min of gameplay (including cinematics)
- Very easy to complete even without coop
- Small number of combats
- Scarce story
- No Magicka jokes
- Weak diversity of strategic situations

. really cool loved it. I love Magicka, played through the main story half a dozen times and enjoyed all the DLCs, except for this one.

I'm sorry but this is an awful DLC that is either a joke or a ripoff that you should stay away from and here's why:

- Insultingly short. Can be completed by an average Magicka player in 15 minutes or less. Maybe if it would add anything else to the game except the campaign, it might give the DLC some value. Right now there is none.

- Serious game breaking bugs & crashes. Some cutscenes and actions make the camera & the player get stuck, forcing you to restart the game. Which of course restarts the DLC from the beginning as it doesn't save progress if you exit.

If you're choosing to buy extra content for the game, go for a different DLC or even some robes. If you already have everything but this DLC, don't bother.. Not worth it. Battles are frustrating rather than fun. Wouldn't buy again. Light on the comedy which made this game great. Waste of money.
